TWO NEW POLICE JUSTICES.

JOHN J. GORMAN AND DANIEL O'REILLEY.

RICHARD CROKER MADE A FIRE COMMISSIONER TO SUCCE D GORMAN.

The corridors of the City Hall, the Mayor's office and the rooms of the Board of Aldermen were filled at an early hour yesterday with a mothey crowd of politicians. The Aldermen were mixed in with Hubert O. Thompson and other department heads, and clerks, laborers, and employes of high and low degree fairly swarmed in the costly decorated rooms of the Board The great question to be decoded was that in regard to the appointment of two Police Justices to succeed Bankson T. Morgan, Republican and Gerson N. Herrman, a member of county Democracy. Commissioner Thompson wanted Daniel O'Rielley, of the Public Works Department, appointed to succeed Herrman, and John Kelly insisted on the appointment of Richard Croker to succeed Morgan. The Mayor was besigged by reprosentatives of the two factions during the entire morning. At noon he was closeted with Mr. Thompson, who feared that the Mayor would renominate Mr. Herrman instead of O'Reilley. John Reilly and other representatives of Tammany Hall were still anxious to have Croker made a Police Justice; but the Mayor was disposed, in deference to public opinion, not to appoint Croker to a Judicial offlee. After numerous conferences and a great deal of bargaining it was finally rumored that the whole question had been settled. Fire Commissioner Gorman was to be made a Police Justice, Mr. Croker was to be made a Police Justice, Mr. Croker was to be made a Police Justice, Mr. Croker was to be made a Police Justice, Mr. Croker was to be made a Police Justice, Mr. Croker was to be still the politicians when the Board was called to order at 1 p. m., and the Merchanian of the Mayor were read, one on minutial and there was a crowd outside unable to see the place of Mr. Herrman, he was to be made and the more of the Aldermen were fairly packed with politicians when the Board was called to order at 1 p. m., and continued the other hominating the motion to lay on the table the motion to continue Mr. Gorman read, one nominating John J. THE RAID ON THE DURANT ESTATE. John H. Cheever of this city had for many years close business connections with Henry F. Durant, whose estate is threatened with litigation by his so-called widow, otherwise Mrs. Shelley. Mr. Cheever for the sake of his old friend has taken much interest in the affair and in conversation yesterday with a TRIBUNE reporter said:

"In the first place I want to set you right on a question of fact. The lost last night published an editorial upon the case in which some misstatements occur. Mr. Durant did not leave his property to be divided between his widow and children. Heleft ne children, but begueathed his entire property

ments occur. Mr. Durant did not leave his property to be divided between his widow and children. He left no children, but bequeathed his entire property with the exception of two legacies amounting together to \$30,000 to his wife. She will only enjoy the income during her life. The legatees who consist of his brother, to whom he left \$20,000, and his niece, who got \$10,000, will also only enjoy the income from these sums for life. Eventually the whole of his large property will revert to Wellesley College, on which he had already spent large sums and of which in fact he was the sole endower. There is one rather interesting thing I may mention. Some time ago, in 1882, letters from a New-York correspondent were printed in The St. Louis Aepublican and an extract of a rather virulent nature was printed in one of the New-York morning papers. The gist of the paragraph was that startling developments might soon be expected relative to Mr. Durant, for though he was not montioned by name, there could be no mistake as to the reference. It was also hinted that Durant was an assumed name, and the general outline of this woman's story was traced. We naturally imagined that this was part of a blackmailing scheme, and accordingly used means to discover the writer of these letters. We traced the authorship to Joseph C. Hendrix, late candidate for the Brooklyn Mayoralty. After a time these anonymous attacks on a dead man's reputation ceased, and the subject was not brought up in public until its recent appearance in the Boston and New-York papers. As to the case itself I feel that it would not become me to give an opinion, though I have formed a very ance in the Boston and New-York papers. As to the case itself I feel that it would not become me to give an opinion, though I have formed a very decided one as to the character of the suit. I re-ceived yesterday a message from one of the Judges of the Supreme Court to the effect that if such a case were brought before him he would use all pos-sible means to effect the disbarring of the counsel engaged."

MAYOR EDSON'S PLAN FOR ITS REFORM. A CONFERENCE WITH THE STATE BOARD-WHAT IT IS PROPOSED TO DO.

Is PROFOSED TO DO.

Mayor Edson held a conference yesterday with the State Board of Civil Service Commissioners in regard to reforming the Civil Service of the city. Civil Service Commissioner Angustus Schoonmaker and Chief Examiner Silas W. Burt represented the State Board. The other persons present were the Mayor, Coutroller Grant, Charity Commissioner Porter, Dock Commissioners Voorhis and Stark, Street Commissioner Coleman, and Hubert O. Thompson, Commissionerer Or Public Works.

Chief Examiner Burt read the rules and regulations prepared at the suggestion of the Mayor. They apply to all departments except the police, health, fire, educational, and law departments, which are excluded by law. Elective officers and those under bond for the safe-keeping of money are also excepted from the application of the proposed rules. The proposed regulations divide the Civil Service of the city into four classes, which will correspond with the classification of the State Civil Service. Applicants for admission to the first three classes are to be examined either by competitive or non-competitive examinations. The fourth class will constitute laborers, or day workmen, who will not be examined, but all appointments and removals in this class must be reported to the examiners, in order that a complete record may be kept of the Civil Service of

that a complete record may be kept of the Civil Service of the city.

The State Board recommend the appointment of three Boards of Examiners. The first is to examine clerks, copyists, bookkeepers, etc., known as Class A; the second to examine employes who have executive and expert duties to perform; and the third board to be specially appointed to examine applicants for places under the Board of Charities and Correction. Mr. Burt said that it was deemed best to have a special Board of Examiners for the charity department, owing to the special and varied character of the duties performed by employes in that department. Each Board of Examiners is to be composed of three citizens appointed by the Mayor, and not more than two members of a Board shall belong to the same political party. The Mayor is to appoint a clerk and secretary for each Board. The compensation of examiners must be fixed by the Board of Estimate and Apportionment. All competitive examinations are to be confined to one class. In non-competitive examinations the applicants must fulfil certain requirements in order to be eligible for appointments.

The rules do not place any restrictions on removals, further than that the reasons therefor must be filed with the Board of Examiners; but, after the

The rules do not place any restrictions on removals, further than that the reasons therefor must be filed with the Board of Examiners; but, after the rules and regulations go into effect, no appointments can be made except among those persons who have qualified before the Board of Examiners. Chief Examiner Burt said that the State Board would favor a change in the laws governing the city so that the removals could be unde at will. Commissioner Schoonmaker said that in his opinion the worst provision in the City Charter was that which restricted removals, and required the Mayor and heads of departments to go through the form of a trial when any person was to be removed.

The State Board of Civil Service Commissioners The State Board of Civil Service Commissioners also recommended that the employes in the various departments be classified in regard to pay, so that men performing the same kind of work would receive the same pay. At the present time there is no classification whatever, Mr. Burt said, some men receiving 50 per cent more pay than others for performing precisely the same work.

The Mayor said that he regarded the recommendations made by the State Board as valuable, and he would carefully examine them, and appoint another conference at some future day.

Some heavy lines of assurance on Southern and Southwestern railway properties expire this month, and will not be renewed. This is a matter of much grief to many brokers. Nine-tenths of all the railroads in the United States effect their insurance in New-York City and the commissions on these lines are generally "fat things."

The cancelling of the American risks of Reassurances Generalles, a French company, is among the current proceedings in fire insurance circles. During the week various policies on large dry-goods houses have been cancelled.

The several heavy losses that have occurred recently on cotton in transit in this city and elsewhere have led the ire insurance companies to contemplate an increase in rates. Rates on those risks have been ruinously low for a long time. However, it is not probable that any action will be taken immediately to advance rates on cotton in transit risks.

MORE ABOUT UNEXPENDED BALANCES.

The Board of Estimate and Apportionment met in the Mayor's office yesterday and authorized the Controller to issue revenue bonds to the amount of \$25,000 to meet the expenses of the Assosment Commission for its extended term of one year. The Controller presented a letter from the District-Attorney requesting a transfer of \$3,000 from the unexpended appropriation for salaries for the year 1882 to the appropriation for contingencies for the District-Attorney's office for the present year, and offered a resolution to make the transfer. Commissioner Asten objected. He said he did not believe in the way such matters were sprung on the Board and rushed through before any opportunity was had to examine into them. The rules of the Board required that such resolutions lie over until the next meeting, and he insisted on the rules being enforced. The question then went over until the next meeting of the Board. The Park Commissioners sent a letter again requesting that the transfer of \$9,500 asked for by them be made. No action was taken on the letter. MORE ABOUT UNEXPENDED BALANCES.

Alderman Reilly said that the Corporation Counsel ought to give an opinion as to the value of the services rendered. President Asten said that some of the items in the bill were extraordinary. A charge of \$20 was made for serving a paper. It was moved and adopted that Mr. Lyddy be requested to furnish an itemized bill and that the matter be referred to the Controller and Corporation Counsel for a report as to the nd Corporation Counsel for a report as to the egality of the claim and value of the alleged

GOOD READING FOR BOYS.

A free reading-room for boys was opened in June of this year at No. 16 East Fourteenth-st., by the Young Ladies' Christian Temperance Union and the Boys' Loyal Legion. It is designed to benefit all boys employed through the day and to provide them a pleasant place in which to spent their evenings. They can play harmless games or read healthful books. The room is open every evening except Sunday from 7 to 9:30. A reception was given last evening. Mrs. Willis A. The employes in the carpet factory of E. S. Higgins & Co., at the foot of West Forty-third-st., consisting of 2,000 men and women, are on a strike against a reduction of 10 per cent in their wages. A meeting of the strikers was held at Wendel's Assembly Rooms, in West Forty-fourth-st., yesterday morning. The matter was brought up before the Executive Council of the Building Trades at its last meeting, and it was resolved to assist the carpenters by ordering a general strike whenever it was necessary. HUGUENOTS IN AMERICA.

MEETING OF THE HUGUENOT SOCIETY. ADDRESSES BY JOHN JAY, ASSISTANT BISHOP POT

TER AND BISHOP QUINTARD,

ADDRESSES BY JOHN JAY, ASSISTANT BISHOF POTTER AND BISHOP QUINTARD.

The French Protestant Church du St. Esprit was almost filled last night at the first public meeting of the Huguenot Society of America, which has recently been established. After singing and a prayer by the Rev. A. V. Wittmeyer, paster of the church and secretary of the society, the president, John Jay, delivered an address. He referred to the object for which the society had been formed—the perpetuation and gathering together of the records of the Huguenots in America. He referred to the incalculable benefits conferred on this country by the emigration hither of Huguenot refugees, and quoted a glowing tribute of admiration from an address by Dr. Storrs. Mr. Jay then introduced Bishop Quintard, of Teunessee, who delivered an interesting discourse. He began by giving a brief account of the great Reformation in Europe in the sixteenth century. He said that in the twenty years preceding the Edict of Nantes 400,000 Huguenots left France, and 600,000 in the twenty years preceding the Edict of Nantes 400,000 Huguenots left France, and 600,000 in the twenty years following the revocation of the edict. Most of these refugees were citizens of consideration. In 1664 the first Huguenot colony was settled in New-York, and in September of the year 1669 the town of New-Rochelle was founded.

After the singing of Rossini's Terzetto "Accorde nous les faveurs O Dieu" Assistant Bishop Potter made a few remarks. He said in part:

I am in no sense here to deliver an address, but have come to express my congratulations and rejoicing at the organization of such a society as yours. In such times as these we want to be reminded of things unseen yet cternal, of heroism which, though unseen, never dies; of contage and virtues which are an element of power in a community as well as a dignity to any same; and that is the reason that I am thankful that this association exists. It is a curious annomaly that in a fermille so allorether republican so content in the past and

than by Poritans their roots would be there to-day.

The speaker then referred to Millain's well known picture of the Hurmenot lover and his Catholic mistress, and asked his hearers if they could forget "that expression, so tender, so gentle, but so courageous and so unyielding, which denoted that he would not save his lite unless he saved his honer too," and summed up the meaning of the words "Noblesse oblige." He besought his hearers to remember the claims on them to be held in honored memory, of those forefathers who had held onto the faith which God had revealed to them in their closest and on their knees. He ended by adjourning those present to cherish the memory of their forefathers' virtues and to remember that "Noblesse oblige."

An interesting paper was then read by Professor Henry M. Baird, D. D., author of the "Rise of the Hugmenots," on some historical aspects of the Hugmenot community. Then the Rev. Dr. Thomas E. Vermilye made a few striking remarks. He said that "God had created the Hugmenots for the great things which had to be accomplished to secure civil and religious liberty on the face of the earth." They had throughout their history given evidence, not only of a high probity, but of an earnest and mosteniations religion.

MR. JUDSON NOT TO LEAVE NEW-YORK.

A paragraph in the Brooklyn items of The Tanicus yesterday stated that a call had been extended by the Marcy Avenue Baptist Church, of Brooklyn, to the Rev. Edward Judsen, of the Baptist Mission at Bedford and Downing sts., New-York. Mr. Judson has been engaged in mission work about two years in New-York. He came here from Orange, N. J., leaving one of the principal churches there to enter into a field which he thought needed his efforts more. He was surprised yesterday to learn that any knowledge of his call to the Brooklyn church fiad become public, as it was only on Tuesday that the call had been extended him. "I have no intention of leaving my present field," he said. "I have been here just long enough to lay a foundation for good work and in this time I have met even with greater returns than I had reason to expect. Here, in the old Ninth Ward, there is a large American population that has been left by the churches that have moved uptown. These people need and deserve attention and they know yery well what is that have moved uptown. These people need and deserve attention and they know very well what is a good church."

You will not then accept this offer, probably ?" "I do not expect to, highly as I esteem it. I have no wish to leave this work. When I was informed a short time ago of the intention to extend to me this call, I wrote requesting that the church would not do so, as I could not accept it."

DR. DEEMS DENIES A PUBLISHED STORY. DR. DEEMS DENIES A PUBLISHED STORY.

In The Graphic of yesterday appeared a paragraph relating to the Church of the Strangers. It described a church quarrel in which two men, each Smith by name, were the contestants, and the Rev. Dr. Deems, the pastor of the the church, was said to have "castigated" the Smith who was not his favorite. Dr. Deems returned last night from Lafayette College, where he had delivered a philosophical lecture on Wednesday. "The story published in The Graphic is wholly false." he said. "There was no quarrel at our monthly meeting. The two Smiths mentioned in the article did take part in that meeting. One of them offered a resolution—an unimportant resolution—and the other raised an objection. The two men are the best of friends. One of them is Henry P. Smith, the artist, and a paper should print such false statements."

No tidings of Robert Fellows, of Stamford, Conn., the missing mining broker and member of the firm of E. A. Bliss & Co., jewellers at No. 176 Broadway, were received yesterday by his friends, who declare that it is impossible that Mr. Fellows is on a protracted spree. He was an active church member, and was for a long time president of the Young Men's Christian Association of Stamford. Mr. Fellows was last seen at the liquor store of C. J. Donovan, at Cortlandt and Greenwich sts., on the evening of October 29. Mr. Donovan says that Mr. Fellows came into the place with Thomas B. Decker, superintendent of the Weelawken Ferry, both of the men being under the influence of liquor. They took one drink and Mr. Fellows went out alone.

THE CAUSE OF JOHN POTH'S DEATH. Coroner Levy yesterday concluded the inquest in the case of John Poth, the driver of a meat wagon, who fell from the seat of his wagon on the night of October 3, at Pier No. 38 North River, and sustained injuries of which he died. The jury found that Poth came to his death by an accidental fall from his truck which caused a fracture of the skull.

Thursday night while Patrolmen Myers and Steerman were on their heat near Decaturest, they were sent for to go over on lower Wheatest, to squeleh a row. While passing the medical college on Hatterest, they notice a man shying around in the dark. Suspecting that something was wrong, they gave chase and ranhim some distance. "JUSTICE'S JUSTICE" IN MAINE. From The Botton Herald.

An astonishing specimen of "justice's justice" was afforded last week by a Parmington (Me.) functionary called Judge Chandler. One David Staples was suspected of stealing \$30 from an uncle. There was no proof, but somebody remembered that at one time, how far back in the past is not stated, he did take a two-cent piece and a one-sent piece which did not belong to him, and for this crime David Staples was arreated, arraigned, convicted and sentenced by "Judge" Chandler to thirty days in jail—ten days for each cent. If any greater outrage has recently been perpetrated we don't want to hear about it. This is enough. And this happened in the same Silate where last nonth a murderer was allowed to escape on paying a fine and costs. He was rich and did not mind the fine, and the judge thought he ought to be spared the disgrace and given a chance to reform.
